The new Edge from Kuris Spezialmaschinen offers all advantages of a fully automatic CNC Cutter with a very attractive value for money. Due to the small dimensions of the cutter, the Edge is ideal for small spaces. Sample cuts, small or medium sized series - the Edge from Kuris is the perfect solution, if flexibility, efficiency and accuracy is required for a very convenient price. Based on the established Kuris Technology, this system offers all features, that can also be found at large cutting systems.

Due to the different options, the Edge provides a wide field of applications. The cutting window with the dimensions 1,60 m x 2,20 m and 1,60 x 3,40 offer enough space for most cutting orders while the table dimensions are still very compact.

The Edge is the perfect system, if easy, fast and economic solutions are required.

The comprehensive product range also allows solutions tailored to your particular needs. In our showroom, spreading and cutting machines are available both for general demonstrations and for testing with your own materials.
