

STARTER KIT SK25

MADE IN
GERMANY

STATIC CUTTER

- » Compact design for small production areas
- » Efficient for medium series and sample cuts
- » Flexibly expandable thanks to modular extension
- » Precise cutting up to 25 mm cutting height
- » Strong entry with proven Kuris technology

THE NEW
STARTER KIT

TECHNICAL DATA:

Cutting Table: Static
Max. cutting height: 25 mm
Max. cutting Speed: 90 m/min
Max. positioning Speed: 120 m/min
Max. acceleration: 9 m/s²
Working width: 1.75 m / 2.15 m
Total width (incl. bridge): 2.91 m / 3.31 m
Working length: 3.30 m + 1.20 m Modules
Total length: 4.58 m
Weight of the cutter: ca. 1,500 kg
Working height: 0.85 m

Operating voltage: 400 V, 50 / 60 Hz
Connected electrical load
Control / drive: 2.5 kW
Vacuum unit: 7.5 kW / 11 kW
Total main power: 10 kW
Fuse: 25 A
Compressed air (5-6 bar): 10 l/min
(for drilling device): 180 l/min
Protection class: Class 1

Cutting head:

Knife size: 2 x 6 mm
Tools: - Drilling device
- Drawing device

Nose level: 57 - 74 dB(A)

Mark of conformity: CE

The SK25 from Kuris Spezialmaschinen offers all advantages of a fully automatic CNC Cutter with a very attractive value for money. Due to the small dimensions of the cutter, the Starter Kit is ideal for small spaces. Sample cuts, small or medium sized series - the Starter Kit from Kuris is the perfect solution, if flexibility, efficiency and accuracy is required for a very convenient price. Based on the established Kuris Technology, this system offers all features, that can also be found at large cutting systems. The cutting height of the Starter Kit with up to 25 mm provides a wide field of applications. The cutting height of the Starter Kit, up to 25 mm, enables a wide range of applications. The cutting window measuring 1.75 m x 3.30 m provides sufficient working area for most jobs while maintaining a compact footprint. It can be extended with 1.20 m long extension modules. The Starter Kit is the optimal system when simple, fast, and cost-effective solutions are required.

The comprehensive product range also allows solutions tailored to your particular needs. In our showroom, spreading and cutting machines are available both for general demonstrations and for testing with your own materials. **Arrange an appointment with us. We will be delighted to advise you!**
